

# Repérage

#### Le vérin est un actionneur: "celui qui fait l'action"

En électricité on dit aussi "un récepteur d'énergie"

#### Machine ou groupe fonctionnel N°1

S'il est alimenté par le circuit n°2

Il s'agit d'un vérin ou actionneur lettre "A"

1-2A

### On indique sa fonction dans la machine

## Avance table

#### Avance table
